Re: Storm Water Management Program (SWMP) Annual Report
Ohio EPA Facility Permit Number: 3GQ10003*BG

To Whom It May Concern,

On June 19, 2009, Cuyahoga county was approved (Ohio EPA Facility Permit # 3GQ10003*BG) for coverage under Ohio EPA NPDES General Permit OHQ000002. The Cuyahoga County Engineer's Office submitted an NOI as a Co-Permittee to Cuyahoga County.

Part 4D, of the General Permit requires annual reports to the Director submitted by April 1st of the following year after the Ohio EPA has granted general permit coverage.

Enclosed, please find a copy of the Cuyahoga County Storm Water Management Plan Annual Report for 2014.

If you have any questions, please call Paul Wilson, Senior Project Manager at (216) 348-3984.

Sincerely,

Jamal H. Husani, P.E.
Chief Transportation and Traffic Engineer
Public Works Department

NPDES Small MS4 General Permit (OHQ000002) Annual Reporting Form

Instructions for completing this form:

- OHQ000002 requires that this form be used when submitting annual reports. You may request approval to use your own reporting format.
- Annual Reports are due annually on or before April 1st.
- Complete the form and sign and date the certification statement below.
- If more space is needed than is provided, identify within the provided space that Attachment A, B, C, etc. has been attached.
- If an item of the form is not applicable for your program (such as street sweeping), fill in N/A in the space provided.
- Don't include attachments such as brochures, newspaper clips, sign-in sheets, etc. related to your program with this form. You only need to summarize these within this report. These records must be filed and will be needed during program audits.
- When complete, submit this Annual Report form to the following address:
Ohio Environmental Protection Agency
Division of Surface Water
Storm Water Program – Small MS4
P.O. Box 1049
Columbus, Ohio 43216-1049

Small MS4 Annual Report for Year: 2014

Ohio EPA Facility Permit Number: 3GQ 10003*BG

Name of MS4: Cuyahoga County

Primary Contact: Jamal Husani, P.E.

Title: Chief Transportation/Traffic Engineer

Mailing Address: 2079 E. 9th Street

City: Cleveland

Zip Code: 44115

County: Cuyahoga

Telephone Number: 216-348-3861

Email Address: jhusani@cuyahogacounty.us

Include or attach a Table of Organization. Indicate who (name and contact information) is responsible for overall management and implementation of your program, and if different, each minimum control measure of your program. Identify how development and implementation across multiple positions, agencies and departments occur. Also, identify any Memorandum of Understandings (MOUs) or other such agreements that exist.

Jamal Husani, P.E., Chief Transportation/Traffic Engineer appointed by Stan Kosilesky, Planning and Finance Administrator, is the acting Storm Water Manager for Cuyahoga County.

Public Education & Outreach: Koula Celebrezze, Public Information
Joseph Conway, MIS Coordinator

IDDE: Jeffrey Horvath, P.E.: Chief Bridge Inspection/ Maint. Engineer
James Hazimihalis: Chief Maintenance Superintendent
Bryan Hitch, Maintenance Superintendent
Neil Juhnke, P.S. Chief Surveyor

Construction Site Runoff Control: Michael Kubek, P.E. Chief Highway Design Engineer
Brendan Finn P.E., Chief Bridge Design Engineer
Thomas Sotak P.E. Chief Construction Engineer
Hugh Blocksidge, PE, Sanitary Section Chief
Jamal Husani P.E. Chief Transportation/Traffic Engineer

Pollution Prevention/Good Housekeeping: Thomas Regas, Building Maintenance Superintendent
Bryan Hitch: Maintenance Superintendent
James Hazimihalis: Chief Maintenance Superintendent
Koula Celebrezze, Public Information
Hugh Blocksidge, PE, Sanitary Section Chief

The County has a MOU with Cuyahoga Soil and Water Conservation for Construction Site Inspection Services including Plan Review and recommendations when requested.

The Cuyahoga County Board of Health maintains records, inspects all Home Sewage Treatment Systems in Cuyahoga County, and provides information when requested.

IDDE Plan	Completed (Yes or No)	Measurable Goal	# of Outfalls Screened	# of Dry-Weather Flows Identified	# Of Illicit Discharges:		Effective (Yes or No)
					Identified*	Eliminated	
<p>For the County bridge and culvert projects and/or maintenance-type work, we follow the ODOT CMS and comply with all erosion and sediment controls for subdivision construction sites per the Land Development Regulations. This BMP will only typically be enforced should a new project come to fruition; upgrades are put into place, inspections uncover an illicit discharge, or inquiries related to substandard procedures are called in to the office. ORC 6117.51 calls us to work closely with the CCBH in determining the eventual overflow of all drainage systems.</p>	Yes						Yes
<p>Jeffrey Horvath, PE Chief Section Engineer - Bridge Inspection/Maintenance James Hazimihalis Maintenance Superintendent</p>			344	0	0	n/a	n/a
<p>BMP & Responsible Party</p> <p>Dry-Weather Screening of Outfalls Total # of Outfalls 344 Jeffrey Horvath, PE Chief Section Engineer - Bridge Inspection/Maintenance James Hazimihalis Maintenance Superintendent</p>	Yes	<p>The Public Works department is not set up to adequately perform dry weather screening of contaminated outfalls. We have begun a partnership with the CCBH to track and assist with this measure.</p>					

*Include an attachment which provides schedules for elimination of illicit connections that have been identified but have yet to be eliminated.

ILLICIT DISCHARGE DETECTION & ELIMINATION (IDDE)

- Summarize activities you plan to undertake for the next reporting cycle.

BMP & Responsible Party	Measurable Goal	Summary of Planned Activities	Proposed Schedule
<p>Ordinance or Other Regulatory Mechanism</p> <p>Jeffrey Horvath, PE Chief Section Engineer - Bridge Inspection/Maintenance</p>	<p>The Public Works office via the Bridge Insp/Main. Dept inspects bridges and culverts on the County system yearly. Our inspection program already includes a Visual Inspection Worksheet that must be completed when an illicit discharge is discovered. All structures have plans on file that included storm sewer and drainage connections that outlet into our MS4. This activity will continue as part of our comprehensive Bridge Management program. In addition, we will partner with the CCBH, especially in the township to coordinate all future activities.</p>	<p>The Public Works office does not possess the legal authority to enact ordinances. But, the goal is that every structure would be assessed every year in accordance with the standards and methods set in place. Another main objective is that the Visual Inspection Worksheet would be utilized effectively to coordinate efforts with each municipality and with the County Board of Health, as well as the Ohio Epa.</p>	<p>The schedule set in place is largely mandated by our bridge inspections and the crews that perform them. We have 2 teams that accomplish the inspections and at the same time, look for illicit discharges. This will occur typically during the months from April 15 to November 15.</p>
<p>Storm Sewer System Map</p> <p>Neil Juhnke, PS Chief Surveyor</p>	<p>Continue to develop the mapping exhibit system. The Tax Map Base mapping along with the Location Based Response System's address ranges coupled with the 2013 ortho-photography, referenced in the 2008 hydrology layers and the 2006 2' contours available from the county's CEGIS system, will be utilized for watershed reporting for any area within our MS4 system.</p>	<p>We have developed methodology to use our GEO-XM hand-held GPS unit and the associated Terrasync software to enhance any mapping exhibit product (s) needed to accompany an illicit discharge report.</p>	<p>These applications are continually being refined and will be available for use throughout the entire MS4 for the purpose of illicit discharge reporting.</p>
<p>HSTS Mapping and List</p> <p>Neil Juhnke, PS Chief Surveyor</p>	<p>HSTS mapping and the associated digital data base list are maintained by the Cuyahoga County Board of Health, CCBH. The County Survey Department will continue to maintain a support relationship with the CCBH to further enhance the map products with newly acquired GIS and GPS technologies when needed.</p>	<p>We continue to meet with representatives of all agencies providing data layers to the map exhibits and are refining a mapping model to be used by all who may generate an illicit discharge report.</p>	<p>All applications are in place and will be monitored over the 2015 program year. Coverage of the entire MS4 is available and we stand ready to map a reported illicit discharge.</p>
<p>IDDE Plan</p> <p>Jeffrey Horvath, PE Chief Section Engineer - Bridge Inspection/Maintenance James Hazimihalis Maintenance Superintendent Jamal Husani, PE Acting Stormwater Manager</p>	<p>The Public Works Office will continue the partnership with the CCBH in efforts to plan, coordinate and implement a future program that will systematically address all areas of the County. Mapping, sampling, screening and eventual replacement of sewer systems, HSTS's and our MS4 overall have been discussed. The CCBH currently performs these tasks and will aid the County when necessary.</p>	<p>We will continue to meet with the CCBH and coordinate activities, meetings, etc. We will assist each municipality as the need arises to eliminate any illicit discharges dumping into the MS4. Finally, we will continue to inspect all structures within our jurisdiction and report on their condition, as well as any illicit discharges uncovered.</p>	<p>The schedule is one of follow-up and notification. Once an illicit discharge is discovered, the Public Works office notifies the affected municipality. This activity will continue. As we develop a partnership with the CCBH this schedule may become diversified to incorporate the dry-weather flows.</p>

State of Ohio Environmental Protection Agency

SMALL MS4 ANNUAL REPORT FORM

<p>Dry-Weather Screening of Outfalls</p>	<p>Jeffrey Horvath, PE Chief Section Engineer - Bridge Inspection/Maintenance James Hazimihalls Maintenance Superintendent Jamal Husani, PE Acting Stormwater Manager</p>	<p>The Public Works office is not set up to adequately perform dry weather screening of contaminated outfalls; however, dry weather collection and documentation may be performed. This can best be accomplished in working with the CCBH.</p>	<p>The Public Works Office has begun a partnership with the CCBH to accomplish this task.</p>	<p>The proposed schedule is mandated solely by the efforts of the CCBH, illicit discharges that are uncovered and follow-up activities on the part of the municipalities. Meetings will be scheduled as needed throughout the year.</p>

Monitor effectiveness of language in Public Works General Provisions regarding enforcement of installation of Post-Construction storm water devices on construction projects.</p>	<p>On-going</p>
<p>Post-Construction Requirements</p> <p>Brendan Finn, PE Chief Bridge Design Eng. Michael Kubeck, P.E. Chief Highway Design Engineer Hugh Blocksidge, PE, Sanitary Section Chief</p>	<p>Identify projects where BMP's are needed. Work with maintaining agencies to implement appropriate BMP's. Monitor updates to ODOT policies/BMP's. Monitor implementation of NPDES Permit</p>	<p>Evaluate all projects for BMP's Monitor updates to ODOT L&D Meet with CSWCD as needed. Monitor NPDES implementation We transitioned all departments into one for uniformity where practical.</p>	<p>On-going</p>
<p>Site Plan Review Procedures</p> <p>Brendan Finn, PE Chief Bridge Design Eng. Michael Kubeck, P.E. Chief Highway Design Engineer Hugh Blocksidge, PE, Sanitary Section Chief</p>	<p>Identify projects where BMP's are needed. Work with maintaining agencies to implement appropriate BMP's. Monitor updates to ODOT policies/BMP's. Monitor implementation of NPDES Permit</p>	<p>Evaluate all projects for BMP's Monitor updates to ODOT L&D Meet with CSWCD as needed. Monitor NPDES implementation We transitioned all departments into one for uniformity where practical.</p>	<p>On-going</p>
<p>Site Inspection Procedures</p> <p>Thomas Sotak, PE Chief Construction Eng.</p>	<p>Continue to work the CWSCD to monitor/inspect installation of post-construction BMP's on a monthly basis. Continue to develop procedures to enforce the contractor's obligation to properly install post-construction BMP's in a timely manner</p>	<p>Continue to perform monthly inspections in cooperation with CWSCD concerning the installation of post-construction BMP's. Continue to monitor ODOT Construction & Material Specifications for any significant changes to construction techniques concerning post-construction BMP's. The County Council has the ability to pass ordinances; however, it does not have the authority to regulate storm water management in the various municipalities within Cuyahoga County. We transitioned all departments into one for uniformity.</p>	<p>On-going</p>

SMALL MS4 ANNUAL REPORT FORM

POLLUTION PREVENTION/GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

BMP & Responsible Party	Measurable Goal	Completed (Yes or No)	Topic(s)	Targeted Audience	# of Employees Attended	Summary of Activity	Effective (Yes or No)	
Employee Training Program James Hazimihalis Chief Maintenance Supt. Koula Celebrezze Public Information	Inform employees through in house meetings, seminars and other training outlets on methods to reduce storm water pollution	Yes	Proper disposal of prescription drugs.	Public Works Maintenance Staff	300	Pollution Prevention	Yes	
List of Municipal Facilities Subject to Program								
York Road Yard, Sanitary Yard, Echo Hills WWTP		Yes				3	On-going	
Summarize Maintenance Activities and Schedules								
MS4 Maintenance	Continue maintenance of roadways, structures, catch basins, drainage ditches, and facilities in Public Works jurisdiction							
Document Amounts of Wastes Properly Disposed								
Disposal of Wastes	Yes		Trees/ clippings: 117 yds Used motor oil: 0 gal Anti-freeze: 0 gal	Scrap steel: 17 tons Construction debris: 0 yds. Asphalt grindings: 0 tons	Summarize Activities Performed			Continue maintenance of roadways, structures, catch basins, ditch cleaning and facilities insuring MS4 are unobstructed and functional
Road Salt	Yes		Tons Used	0	Summarize Measures Taken to Minimize Usage			It is applied in high traffic areas when temperature is expected to stay below freezing. Do not pre-salt roadways. Calibrate salt spreaders to road conditions.
Pesticide & Herbicide Usage	Yes		Gallons Used	0	Summarize Measures Taken to Minimize Usage			Follow manufacturer instructions, with some products dilution is as effective
Fertilizer Usage	Yes		Pounds Used	0	Summarize Measures Taken to Minimize Usage			Follow product labels for application rates. Educate NOT to over fertilize.
Street Sweeping	Yes		Document Amount of Material Collected and Properly Disposed		Summarize any New or Existing Flood Management Projects that were Assessed for Impacts on Water Quality			632.20 tons
Flood Management Projects	None

PROPOSED CHANGES TO YOUR SWMP (IF ANY)

- Summarize any proposed changes to your SWMP, including changes to any BMPs or any identified measurable goals that apply to the program elements. If you fail to satisfy measurable goals for the reporting year, please explain why.

The Department of Publics Works is continuing to reorganize and in the process new staff is being assigned different tasks and responsibilities to aid in the county's setting and meeting measurable goals for their SWMP.

VARIANCES GRANTED (IF ANY)

- Identify and summarize any variances granted under your storm water program.
